APPLICATIONS**

JANUARY 18, 1978.

The following applications are governed by Special Rule 247 of the Commission's General Rules of Practice (49 CFR § 1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date of notice of filing of the application is published in the FEDERAL REGISTER. Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) further provides, in part, that an applicant who does not intend timely to prosecute its application shall promptly request dismissal thereof, and that failure to prosecute an application under procedures ordered by the Commission will result in dismissal of the application.

Further processing steps will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

2-1. *Adherence to Law.*

2-101. *Purpose.* Information about the capabilities, intentions and activities of foreign powers, organizations, or persons and their agents is essential to informed decision-making in the areas of national defense and foreign relations. The measures employed to acquire such information should be responsive to legitimate governmental needs and must be conducted in a manner that preserves and respects established concepts of privacy and civil liberties.

2-102. *Principles of Interpretation.* Sections 2-201 through 2-309 set forth limitations which, in addition to other applicable laws, are intended to achieve

the proper balance between protection of individual rights and acquisition of essential information. Those sections do not authorize any activity not authorized by sections 1-101 through 1-1503 and do not provide any exemption from any other law.

2-2. *Restrictions on Certain Collection Techniques.*

2-201. *General Provisions.*

(a) The activities described in Sections 2-202 through 2-208 shall be undertaken only as permitted by this Order and by procedures established by the head of the agency concerned and approved by the Attorney General. Those procedures shall protect constitutional rights and privacy, ensure that information is gathered by the least intrusive means possible, and limit use of such information to lawful governmental purposes.

(b) Activities described in sections 2-202 through 2-205 for which a warrant would be required if undertaken for law enforcement rather than intelligence purposes shall not be undertaken against a United States person without a judicial warrant, unless the President has authorized the type of activity involved and the Attorney General has both approved the particular activity and determined that there is probable cause to believe that the United States person is an agent of a foreign power.

2-202. *Electronic Surveillance.* The CIA may not engage in any electronic surveillance within the United States. No agency within the Intelligence Community shall engage in any electronic surveillance directed against a United States person abroad or designed to intercept a communication sent from, or intended for receipt within, the United States except as permitted by the procedures established pursuant to section 2-201. Training of personnel by agencies in the Intelligence Community in the use of electronic communications equipment, testing by such agencies of such equipment, and the use of measures to determine the existence and capability of electronic surveillance equipment being used unlawfully shall not be prohibited and shall also be governed by such procedures. Such activities shall be limited in scope and duration to those necessary to carry out the training, testing or countermeasures purpose. No information derived from communications intercepted in the course of such training, testing or use of countermeasures may be retained or used for any other purpose.

2-203. *Television Cameras and Other Monitoring.* No agency within the Intelligence Community shall use any electronic or mechanical device surreptitiously and continuously to monitor any person within the United States, or any United States person abroad, except as permitted by the procedures established pursuant to Section 2-201.

(d) No surveillance under paragraph (c) of this section may be conducted within the United States unless the person being surveilled is a present employee, intelligence agency contractor or employee of such a contractor, or is a military person employed by a non-intelligence element of a military service. Outside the United States such surveillance may also be conducted against a former employee, intelligence agency contractor or employee of a contractor or a civilian person employed by a non-intelligence element of an agency within the Intelligence Community. A person who is in contact with such a present or former employee or contractor may also be surveilled, but only to the extent necessary to identify that person.

2-207. *Undisclosed Participation in Domestic Organizations.* No employees may join, or otherwise participate in, any organization within the United States on behalf of any agency within the Intelligence Community without disclosing their intelligence affiliation to appropriate officials of the organization, except as permitted by procedures established pursuant to Section 2-201. Such procedures shall provide for disclosure of such affiliation in all cases unless the agency head or a designee approved by the Attorney General finds that non-disclosure is essential to achieving lawful purposes, and that finding is subject to review by the Attorney General. Those procedures shall further limit undisclosed participation to cases where:

(a) The participation is undertaken on behalf of the FBI in the course of a lawful investigation;

(b) The organization concerned is composed primarily of individuals who are not United States persons and is reasonably believed to be acting on behalf of a foreign power; or

(c) The participation is strictly limited in its nature, scope and duration to that necessary for other lawful purposes relating to foreign intelligence and is a type of participation approved by the Attorney General and set forth in a public document. No such participation may be undertaken for the purpose of influencing the activity of the organization or its members.

2-208. *Collection of Nonpublicly Available Information.* No agency within the Intelligence Community may collect, disseminate or store information concerning the activities of United States persons that is not available publicly, unless it does so with their consent or as permitted by procedures established pursuant to Section 2-201. In the case of any company or institution other than an academic institution, intelligence agency sponsorship may be concealed where it is determined, pursuant to procedures approved by the Attorney General, that such concealment is necessary to maintain essential cover or proprietary arrangements for authorized intelligence purposes.

2-304. *Restrictions on Personnel Assigned to Other Agencies.* An employee detailed to another agency within the federal government shall be responsible to the host agency and shall not report to the parent agency on the affairs of the host agency unless so directed by the host agency.
